2019 SHAW FEMALE SALE SPRING BREEDING UPDATE SHEET			
RED ANGUS			
201	4/11/2019	ANDRUS FUSION R236	Ultrasounded safe.
202	5/4/2019	ANDRUS FUSION R236	Ultrasounded safe.
203	4/18/2019	ANDRUS FUSION R236	Ultrasounded open.
204	5/4/2019	ANDRUS FUSION R236	Ultrasounded safe.
205	4/11/2019	ANDRUS FUSION R236	Ultrasounded safe.
206	5/12/2019	BROWN JYJ REDEMPTION Y1334	Too short to verify.
207	5/12/2019	ANDRUS FUSION R236	Too short to verify.

NOTE: All of the spring calving females were either synchronized and bred A.I. on 4/11/19 or 4/18/19, or were bred A.I. off natural heats. The females that are confirmed bred have been pregnancy tested via ultrasound. None of the females have been pasture exposed. Shaw Cattle Co. guarantees the pregnancy information reported to be accurate as of sale day and further guarantees all females in the sale that are a year of age and older to be sound breeders according to their respective breed association terms and conditions. However, Shaw Cattle Co. does not guarantee that all of the females will remain safe to the A.I. service that is listed after transportation, so we recommend that the buyers re-preg their purchases once they are delivered and/or turn with a bull. The fall bred females are just like it is reported in the catalog.

NOTE REGARDING FEMALES THAT WERE ULTRASOUNDED OPEN:
These females have not been re-bred or pasture exposed, and have not been observed in heat, so we recommend that you re-preg once you get these home in case the ultrasound missed the pregnancy. They sell guaranteed to be sound breeders.

NOTE REGARDING FLUSH LOTS 1, 9, 16, 17, and the LOT 18 DONOR:
These females are set up to flush 6/14/19 and the buyer has the option to use this flush date, but will need to provide semen ASAP. Shaw Cattle Co. recips will be available for impantation of fresh embryos if the buyer desires.
Contact Shaw Cattle Co. for details.
